

Hygiene & Washing Equipment / Crate Washing Machines

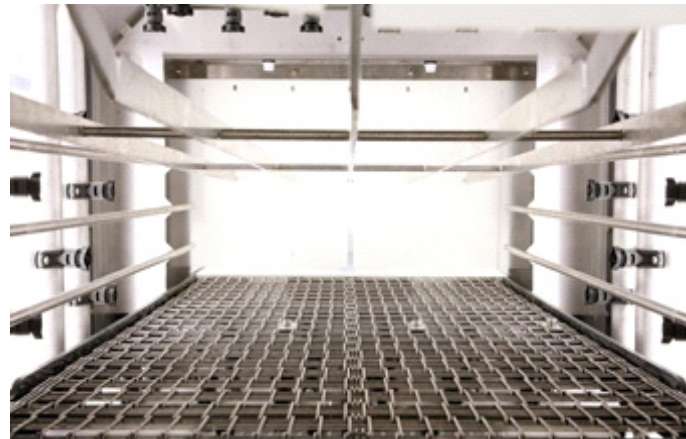

Eliona WR 125.40 Crate Washing Machine

Capacity: 125 Crates / Hour
Minimum distance between crates: 10 cm
Maximum gap height : 30 cm
Maximum gap width: 40 cm
Tank heating: 12 Kw
One chain stainless steel transport system
Total power consumption: 16,5 Kw
Rinsing water usage: 75-125 lt/hr
2 axial spray tube with removable nozzles on washing section
Thermostatically analog controlled heating system
Automatic water filling system, water level regulation and low-level water control
Transport speed: 1,5 mt / min
Control cabinet
Emergency stops
Stainless steel construction and belt transport system
Infeed, washing, rinsing and outfeed sections are available
Weight: 250 kg

Eliona WR 125.60 Crate Washing Machine

Capacity: 150 Crates / Hour
Minimum distance between crates: 10 cm
Maximum gap height : 30 cm
Maximum gap width: 60 cm
Tank heating: 12 Kw
One chain stainless steel transport system
Total power consumption: 16,5 Kw
Rinsing water usage: 75-125 lt/hr
3 axial spray tube with removable nozzles on washing section
Thermostatically analog controlled heating system
Automatic water filling system, water level regulation and low-level water control
Transport speed: 1,5 mt / min
Control cabinet
Emergency stops
Stainless steel construction and belt transport system
Infeed, washing, rinsing and outfeed sections are available
Weight: 300 kg

Hygiene & Washing Equipment / Crate Washing Machines

CreteI AWM 235 Crate Washing Machine

Capacity: 250-350 Crates / Hour

Minimum distance between crates: 20 cm

Maximum gap height : 30 cm

Maximum gap width: 40 cm

One chain stainless steel transport system

Total power consumption: 21 Kw

Rinsing water usage: 150-200 lt/hr

Thermostatically analog controlled heating system

Automatic water filling system, water level regulation and low-level water control

Transport speed: 2.8 - 4 mt / min

Control cabinet

Emergency stops

Stainless steel construction and belt transport system

Infeed, washing, rinsing and outfeed sections are available

Weight: 375 kg

CreteI AWM 235B Crate Washing Machine

Capacity: 350-450 Crates / Hour

Minimum distance between crates: 20 cm

Maximum gap height : 30 cm

Maximum gap width: 60 cm

One chain stainless steel transport system

Total power consumption: 27 Kw

Rinsing water usage: 150-200 lt/hr

Thermostatically analog controlled heating system

Automatic water filling system, water level regulation and low-level water control

Transport speed: 2.8 - 4 mt / min

Control cabinet

Emergency stops

Stainless steel construction and belt transport system

Infeed, washing, rinsing and outfeed sections are available

Weight: 450 kg
