

FLOWMETERS

KFM SERIES ELECTROMAGNETIC FLOWMETERS

Thread, Flanged, Clamp Connections
Different Liner Materials and Electrodes
Remote or Local Display
High Measuring Accuracy, Quick Response Time
Analog and Digital Output, HART Protocol
CE and Wras Approved
Turkish and English Language

VM SERIES ELECTROMAGNETIC FLOWMETERS

Thread Connection
316Ti or PVDF Connection Options
Standard Pulse Output, Optional 4-20mA or 0-10 V
Compact Type for Filling Systems

TDS100 SERIES ULTRASONIC FLOWMETERS

Connection on Pipe Surface
Quick Installation
Types of Hand Held, Wall Mount, Modular
Pipe Measure Range : DN15 ... DN6000

CG SERIES CORIOLIS MASS FLOWMETER

Thread, Flanged Clamp Connections
Remote or Local Display
High Measuring Accuracy, Quick Response Time
Quick Response Time
Analog and Digital Output HART Protocol
Measurement Accuracy : Gas : % 0,5, Liquid : % 0,2

FLOWMETERS

KF-500 SERIES

URBINE TYPE FLOWMETERS

Thread, Flanged, Clamp Connections

304SS or PTFE Body

Measurement Accuracy : % 1

Standart Pulse Output, Optional

Display and Analog Output

OM SERIES

OVALGEAR FLOWMETERS

Thread, Flanged, Clamp Connections

Aluminum or SS Body Options

Measurement Accuracy : % 0,5

Types of Low Flow Range, High Pressure

Standart Pulse Output, Optional Display and Analog Output

Ex-Proof and ATEX Approved

PLASTIC TUBE

VARIABLE AREA FLOWMETERS

Models of Line Type, Pano Type

Glue or Thread Connection Options

Models of Different Pressure and Temp. Resistant

Types of Low and High Alarm Output

GLASS TUBE

VARIABLE AREA FLOWMETERS

Models of Line Type, Pano Type

Thread, Flanged, Clamp Connection Options

Models of Different Pressure and Temp. Resistant

Types of Low and High Alarm Output

Types of Calibrated according to Operation Conditions

FLOWMETERS

LUG SERIES VORTEX FLOWMETER

Flanged or Wafer Type Connections
Remote or Local Display
High Measuring Accuracy, Quick Response Time
Analog and Digital Output, HART Protocol
Measurement Accuracy : % 1
Operation Condition : -40 ... + 350 °C
Temperature-Pressure Compansation

KF 800 SERIES METAL TUBE FLOWMETERS

Thread, Flanged Connection Options
Models of Different Pressure and Temp. Resistant
Types of Low and High Alarm Output
Analog Output and Digital Display Options Types of Calibrated according to Operation Conditions

MJ-SDC SERIES WATER METERS

Thread, Flanged Connection Options
Types of Pulse Output
Brass Iron Body

FLW SERIES FLOW SWITCHES

Line Type or Insertion Type
Brass or SS Body Options
Normally Open or Close Contact
Different Connection Sizes

FLOW INDICATOR AND CONTROL PANELS

Pano Type Flow Indicators
Instat and Total Flow Indicators
24 Vdc or 220 Vac Power Supply
Effective Solutions for All Kinds of Fluids
